

**REMARKS**

The claims have been amended to conform to U.S. practice and to reduce the filing fees. The published application contained claims 1-47, the above amendments cancel them without prejudice or disclaimer and add new claims 48-89. Therefore, only claims 48-89 are pending.

The specification is amended to include a cross-reference to the parent applications. The Abstract is revised to conform to U.S. practice. The substitute paper and computer readable copies of the Sequence Listing are the same; their entry does not add new matter. A separate Statement to this effect is attached.

An early and favorable action on the merits of the claimed invention is requested.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
